Area	150 m ²
Year	2015

WALL AG GERMANY

As an international street furniture provider and outdoor advertiser, Wall AG is well known throughout Germany and Turkey. Their mission to improve the quality of information and life in urban settings attracted interior design firm, IONDESIGN, leading to this renovation project in Berlin. Among other upgrades, 150 square meters of Bolon flooring in 'Now' Silver was installed. The metallic tones added the perfect amount of drama to this SmartDigital office.
