BENE SHOWROOM GERMANY

With a history dating back 225 years, Bene group is an international design and furnishing specialist offering inspiring solutions for work environments. With operations in more than 40 countries, this quality driven company is proud to be a full service provider. For this creative space located In Cologne, Germany, 65 square meters of Bolon Studio™ Scale Tiles was chosen to be installed. The soft pastel shades from the Flow collection created a calm atmosphere in the Idea Lab area of the Bene showroom. By bringing the tiles up onto the walls, the design fluidity of Flow Stream, Alga, Coral and Shell is beautifully showcased.
